Library Online Catalog Relocated

As part of our long-term disaster planning process, the HAM-TMC Library's online catalog server has been relocated to another site in the United States. This move helps ensure that, if you have electricity and access to the Internet, you will have access to the library catalog. Please remember to change your bookmarked link to the new link noted below.
http://hamtmc.thslc.net/cgi-bin/Pwebrecon.cgi?DB=local&PAGE=First.

Go Local Texas Gulf Coast Blog

Following in the footsteps of *Michigan Go Local,* ***Go Local Texas Gulf Coast's*** website project directors have instituted a ***blog*** environment for this free consumer health website. The blog will be used to humanize the website project, post highlights from the quarterly reports, discuss promotion/networking/outreach, list health fairs and other local notices, and promote partners and health issues.

To access the Go Local blog click this link:
http://golocaltxgulfcoast.blogspot.com/

Questions? Contact Adela Justice, 713.799.7183 or adela.justice@exch.library.tmc.edu

Visit Go Local Texas Gulf Coast at http://www.medlineplus.gov/tgc for local health resources in the Texas Gulf Coast area.

Books Have Been Removed from Links Menu in PubMed®

The *B*ooks option on PubMed Links is no longer available. This function used to link the content of PubMed abstracts to the Bookshelf via concept terms. Books continue to be linked from a PubMed abstract if the corresponding article has been cited in a book through the link *Cited in Books.* An improved feature providing concept links from PubMed to Bookshelf Books will be added in the future.

New Port Neighborhood Added to ToxTown®

Do you need to find information about the environment and how it might affect the health of longshoremen, sunbathers, ship crews, and shrimp lovers? ToxTown's new Port neighborhood has the answers. This imaginary port illustrates drinking water and air quality concerns along with wastewater treatment, shellfish safety, work hazards, sun and surf safety, aquaculture and many other topics. The port also highlights possible locations and descriptions of 26 hazardous chemicals.

To access ToxTown click on the link:
http://toxtown.nlm.nih.gov/

More information on ToxTown is available at:
http://www.nlm.nih.gov/pubs/techbull/jf07/jf07_technote.html#8

News in Health

The issue of *News in Health,* a publication that includes practical health news and tips based on the latest NIH research, is now available at:

http://newsinhealth.nih.gov/

Featured Stories:
- The Power of Love: Hugs and Cuddles Have Long-Term Effects
- A Pain in the Gut: Recognize and Prevent Food Poisoning

Health Capsules:
- Pre-Teen Girls at Risk for Extra Pounds
- Short for Breath? It may be OCPD

Featured Website: Mind Over Matter
From the National Institute on Drug Abuse (NIDA), a web site created for children in grades 9-12 to help them understand the effects of drug abuse on the body and the brain.

To access Mind Over Matter go to:
http://teens.drugabuse.gov/mom/

As the primary federal agency for conducting and supporting medical research, NIH produces content that is not copyrighted. Copies can be downloaded and displayed free of charge.

Library Class Schedule

Attend one or more free classes offered by the Library during March 2007.

Navigating Full-Text Journals: March 8
PubMed: March 21
TOXNET: March 20

For a complete class schedule, class descriptions, times and registration visit:
http://www.library.tmc.edu/classes/listclasses.cfm

Classes are offered in the Street Level Classroom of the Library.
