Mobile Access to TMC Library Electronic Journals

To access the full text content available via the Library's institutional subscriptions, please log in to the Library's proxy server using your remote access user name and password.

Library's proxy server: http://ezproxyhost.library.tmc.edu/login

Once logged in, users may access full text for any journal offering mobile access, in accordance with publisher policy. Please note:

- iPads and other tablets may access only the regular journal website, depending on the publisher.
- When accessing a *regular* journal site on a mobile device, users may be automatically redirected to the mobile site, depending on the publisher.
- Journal sites offering mobile access are listed at http://www.library.tmc.edu/usingthelibrary/journalapps.html

Mobile access provided is for various devices as indicated on the list; the list will be updated monthly.

Library Offers Orientations to Highlight Services

Do you need to do some research? Not sure where to start? Are you a new faculty member, student, or employee in the Texas Medical Center? Join us for a TMC Library Orientation to find out about services the library offers. **Library Orientations will be offered on the following dates in the Library classroom**:

Monday, July 23
1:00 pm – 2:00 pm
Register Here

Wednesday, August 8
2:00 pm -3:00 pm
Register Here

Friday, August 24
10:00 am – 11:00 am
Register Here

Thursday, September 6
11:00 am – 12:00 pm
Register Here

Taught by: Allen Lopez, Education Librarian – Reference & Outreach
Phone: 713.799.7170

Endocrine Connections- A New Open Access Journal

Endocrine Connections is a new Open Access journal offering authors the highest possible visibility for their work and stimulating cross-discipline collaboration.

"Endocrine Connections publishes original quality research in all areas of endocrinology, with a focus on papers that have relevance to its related and intersecting disciplines and the wider biomedical community. The journal considers basic, translational and clinical studies. This new open access journal is brought to you by the Society for Endocrinology and the European Society of Endocrinology: working together to further research, education and clinical practice in endocrinology."

Access is freely available at http://www.endocrineconnections.com/ or from our home page, click on "Find Library Materials", "Journals," and type the title into the Search box.

Mobile Access to Drug Information Portal

The National Library of Medicine (NLM) Drug Information Portal at http://druginfo.nlm.nih.gov/m.drugportal has now been optimized for mobile devices. This free resource covers over 32,000 drugs and provides descriptions, drug names, pharmaceutical categories, and chemical structure diagrams. Each record features links to 19 other resources, mostly mobile, including PubMed, LactMed, and Drugs@FDA.

The Drug Information Portal provides a user-friendly avenue to other key government agencies under both the National Institutes of Health (NIH) and the FDA. Choose an information path categorized by audience, ranging from consumer health sources to pharmacogenomics research sites. Choose by drug class, from investigational to prescription, and search results may include clinical trials, AIDS-related information, MeSH pharmacological actions, biomedical literature, and physical properties of drugs. Drug Information Portal is both a very in-depth, and an almost all-encompassing, resource for the development and dissemination of pharmaceutical knowledge.

Visit: http://druginfo.nlm.nih.gov to access Drug Information Portal, or for the mobile version, go to http://druginfo.nlm.nih.gov/m.drugportal . Smart Phones accessing the main site are automatically re-routed to the mobile site.

Upcoming Library Classes

PubMed – Basic
Tuesday, July 24
6:30 pm – 7:30 pm

CINAHL
Friday, August 3
3:00 pm – 4:00 pm

RefWorks
Monday, August 13
10:00 am – 12:00 pm

PubMed – Basic
Tuesday, August 28
6:30 pm – 7:30 pm

Classes are free and are offered in the Library classroom.
