Halloween Open House

To celebrate National Medical Librarians Month, the Library will host a Halloween Open House on Wednesday October 31st from 9:00 am – 2:00 pm.

Waive $ 5.00 of library fines during the month of November – pick up a bookmark at the Library during the Halloween Open House. Present the bookmark at the Circulation Desk for $5.00 credit of library fines during November only.

Visitors to the Library can register for drawings between 9:00 am and 2:00 pm. Prizes to be awarded are two USB memory sticks, copy cards and selected historical books. A sale of leisure reading books will be held in the Library. Proceeds from the sale of leisure reading books will benefit the Library.

Faculty, staff and students from all the institutions in the Texas Medical Center are encouraged to stop by and register for the drawings and inquire about Library services.

New Resources Available at the Library

DynaMed

DynaMed is a clinical reference tool designed for use primarily at the 'point-of-care', providing clinically-organized summaries for nearly 2,000 topics. *DynaMed* is updated daily and monitors the content of over 500 medical journals and systematic evidence review databases. *DynaMed* is available to the Library's educational level users and to all hospitals physically located within the Texas Medical Center. It can also be accessed via remote access accounts for educational and institutional level members.

Clin-eguide

Clin-eguide is a clinical decision support system that distills disease management, drug therapy and laboratory results knowledge into a single resource. *Clin-eguide* includes evidence-based guidelines, books, Facts & Comparison drug information, national guidelines, and patient handouts. *Clin-eguide* is available to the Library's educational level users.

RefWorks
RefWorks is a web-based bibliographic management tool that enables users to organize and create a personal database online, format bibliographies and manuscripts, and import references from a variety of databases using the already created Import Filters. *RefWorks* has incorporated a RSS feed reader so users can establish links to RSS feeds and import data from those feeds directly.
RefWorks is a web-based tool; authorized users may access the program from anywhere at any time. *Refworks* is available to the Library's educational level users.

CINAHL Plus with Full Text
CINAHL Plus with Full Text is a comprehensive source of full text for nursing and allied health journals, providing full text for more than 560 journals indexed in *CINAHL*. *CINAHL Plus with Full Text* is available to the Library's educational level users.

To access these resources go to the Library web site (***http://resource.library.tmc.edu***) and click on databases.
