## Library Survey

The HAM-TMC Library conducted a series of focus groups to help determine the future path of both the physical and virtual library. The focus groups attracted a limited audience. The Library created a survey, based on responses from the focus groups, to encourage broader input from other Library users. The Library values your opinion.

The survey is available at: <http://resource.library.tmc.edu/blog/index.cfm/2007/6/4/Library-Redesign-Take-The-Survey>.

Please participate in the survey, even if you attended a focus group. The Library wants as much input as possible. The survey is available until the end of June and it takes approximately four minutes to complete.

## New in PubMed

It is easy to build complex searches in PubMed using the new [History](#) feature. The History page displays all searches performed recently in PubMed. Each search has a search statement number you can use to build and refine searches.

Quick tips:

- The Search History will be deleted after 8 hours of inactivity.
- Citations in the Clipboard are represented by the search number #0, which may be used in Boolean search statements.
- The History feature holds only 100 searches.
- Citations in the Clipboard are represented by the search number #0, which may be used in Boolean search statements.
