The Insider Express communicates Library news to our users and the Texas Medical Center community. To subscribe or to be removed from this list, please send a message to [liblines@library.tmc.edu](mailto:liblines@library.tmc.edu)

***Hot Topics: Library Closed on Labor Day; Diagnosaurus: A Differential Diagnosis Resource; RefWorks Update; Featured Classes in September***

---

## ***Library Closed on Monday September 1<sup>st</sup>***

The Library will be closed on Monday, September 1<sup>st</sup> in observance of Labor Day. Regular hours resume Tuesday, September 2<sup>nd</sup>.

---

## ***Diagnosaurus: A Differential Diagnosis Resource***

McGraw-Hill's *Diagnosaurus* 2.0, a differential diagnosis tool, is available from [Access Medicine](#). *Diagnosaurus* allows you to search more than 1,000 common diseases and disorders by:

- Symptom
- Disease
- Organ system
- All entries

*Diagnosaurus* (2.0) is derived from McGraw-Hill's 2007 Current Consult: Medicine.

You can access *Diagnosaurus* by looking it up in the Library's Databases list or from within [Access Medicine](#). Once in Access Medicine, click the blue DDx tab at the top of the page or the icon for *Diagnosuarus* further down.

[Access Medicine](#) is available to users at the Educational and Clinical Partner levels.

---

## ***RefWorks Update***

[RefWorks](#) users are invited to log in to *RefWorks* to read in detail about a number of enhancements just released. These include:

- **Enhanced Global Edit:** move, delete or replace data throughout your references
- **Author links** to COS Scholar Universe: when viewing references in Standard or Full View, and when using RefShare, a star icon indicates a potential match with an author profile in COS Scholar Universe
- **A drop-down Output Language setting at the individual reference level** which will allow *RefWorks* to apply special reference-specific formatting in more languages
- **PubMed ID (PMID) and PubMed Central ID (PMCID) fields** have been added for all references

- Users of **Jaws** or **MS Narrator screen readers** will now be able to establish a compliant interface default in the **Tools, Customize** area- see the **RefWorks and Accessibility** section of Help
- **PubMed links** are now activated in RefShare when you enable PubMed Linking via the Tools, Customize area

To access *RefWorks* go to the Library website, click on databases, search for *RefWorks*. Sign up for an individual account if you haven't done so yet and you are ready to start using *RefWorks*.

Want to learn how to use the software? A free class is scheduled on September 17, 2008 from 10:00 -12:00. Register to attend at:

<http://resource.library.tmc.edu/classes/listclasses.cfm>

---
