New and Improved Wi-Fi Access at the Library

The TMC Library has redesigned and installed an improved Wi-Fi network. This network will provide better coverage and faster connectivity.

Next time you access the **library's Wi-Fi, change the wireless network ID to The TMC Library**. Communications in the new network are encrypted so when connecting for the first time you will be asked to enter a password. See Library staff for password information.

The previous Wi-Fi network **HAMTMCL** will be **phased out** in a few months.

Questions? Contact the Reference Department by phone 713.799.7161, e-mail: reference.librarian@exch.library.tmc.edu or via chat at: <http://www.library.tmc.edu/ask/chat.html>

STAT!Ref Going Mobile

You can now access STAT!Ref using your mobile device. To activate this feature, go to STAT!Ref click the "Preferences" link located on top of the Stat!Ref page, and log into your account. Once in your individual account, click "Temporary Log-in Account," and follow directions. Please note that, although more devices are being added, an app for your device may not be available just yet.

Also please note that at present, mobile access must be renewed every 90 days. Once your mobile account is established, you will not need to log in with TMC Library to use mobile STAT!Ref.

Contact the Reference Department by phone 713.799.7161, e-mail: reference.librarian@exch.library.tmc.edu or via chat at: <http://www.library.tmc.edu/ask/chat.html> if you have any questions.

New Library Journal Subscriptions

American Journal of Tropical Medicine and Hygiene and **Journal of the National Comprehensive Cancer Network** are two new journal subscriptions acquired by the library.

The American Journal of Tropical Medicine and Hygiene is the leading international journal in tropical medicine. Content includes original scientific articles and cutting-edge science covering new research, with an emphasis on laboratory science and the application of technology in the fields of tropical medicine, parasitology, immunology, infectious diseases, epidemiology, basic and molecular biology, virology and international medicine. Full text archives are available back to the first issue published in 1921.

The Journal of the National Comprehensive Cancer Network provides the latest information about best clinical practices, oncology outcomes, and new research initiatives. *JNCCN* features updates on the NCCN Clinical Practice Guidelines in Oncology™, review articles elaborating on guideline recommendations, and health services and clinical research papers. *JNCCN*'s goal is to improve the quality of cancer care by addressing oncology practice for all disease stages and presentations. Content covers the entire spectrum of oncologic health care, from prevention and screening to treatment and supportive care. Full text is available from the first issue published in 2003.

To access these journals, visit the library website at: <http://www.library.tmc.edu/> click under [Find Library Materials](#) and select Journals.
