1902.

PRICE TEN DOLLARS.

R. L. POLK & CO., PUBLISHERS,
DETROIT. BALTIMORE. CHICAGO.

Entered according to Act of Congress in the year 1902 by R. L. POLK & CO., in the Office of the Librarian of Congress, Washington, D.C.
TEXAS.

CAPITAL, AUSTIN.

Population of State, 3,048,710.
(U. S. Census of 1900.)
Number of physicians, 5,241.

Texas, the largest State in the Union, extends from 25 degrees 51 minutes to 36 degrees 30 minutes north latitude, and from 93 degrees 31 minutes to 106 degrees 43 minutes west longitude, and is bounded on the north by the Indian Territory, on the southeast by the Gulf of Mexico, on the southwest by Mexico, on the east by Arkansas and Louisiana, and on the west by New Mexico. It comprises an area of 274,356 square miles, or 175,587,840 acres.

The climate is warm, but equable and salubrious, and the mean annual temperature, as observed at Austin, is 69.72 degrees, and at Galveston 69.38 degrees. In the extreme south it is about 75 degrees, and in the north it falls to 56 degrees. The average annual rainfall is about 41 inches.

The following table shows increase in population during 50 years:

<table>

Medical Law of Texas.

An Act to repeal Title LXXXII., of the Revised Statutes of the State of Texas, and to pass in lieu thereof this act: To license physicians and surgeons and endeavor to regulate the practice of medicine, and to punish persons violating the provisions thereof in the State of Texas.

Section 1. Be it enacted by the Legislature of the State of Texas: That Title LXXXII., Articles 3777, 3778, 3779, 3780, 3781, 3782, 3783, 3784, 3785, 3786, 3787, 3788, 3789, of the Revised Statutes of Texas, be and are hereby repealed, and the following be enacted:

Sec. 2. There shall be established three boards of medical examiners for the State of Texas, to be named and styled "the Board of Medical Examiners for the State of Texas," "the Board of Elocution Medical Examiners for the State of Texas," and "the Board of Homeopathic Medical Examiners of the State of Texas," said boards to consist of nine members, whose terms of office shall be for two years or until their successors have been appointed and qualified; provided, that no member shall be a professor or teacher in any medical school.

Sec. 3. The said boards shall consist of men learned in medicine and surgery now in active practice, who shall have resided in the State of Texas, and shall have practiced medicine for not less than five years prior to their appointment, having complied with the laws relating to the practice of medicine already in force in the State of Texas, and shall be appointed by the governor on the tenth day of May following his inauguration, from a list of names to be presented to him by the Texas Medical Association, the Elocution Medical Society of the State of Texas, the Homeopathic Medical Society of the State of Texas; provided, however, in case the Governor shall consider any of the persons so recommended unsuitable he may decline to appoint any such person or persons, and communicate the fact to the presiding officer of the society presenting the nomination, and such society shall, within sixty days thereafter, make other recommendations; and provided, that no one shall be eligible to appointment or service on such medical board who is addicted to intoxication or the habitual use of morphine, cocaine, or other such drugs. Vacancies occurring in such boards shall be filled from the list already in the hands of the Governor for unexpired terms of office.

Sec. 4. The members of such boards shall qualify by taking the usual oath of office before the county judge of the county in which they shall respectively reside. The officers of said board shall be a president, vice-president, and secretary, who shall also act as treasurer. Six members shall constitute a quorum. Regular meetings of the boards shall be held at least twice a year at such times and places as the boards may from time to time determine. Due notice of said meetings shall be given by publication in such papers as may be selected by the boards. Special meetings may be held upon the call of the president and two members. The board may prescribe rules, regulations and by-laws for the practice of medicine and surgery in this State, and shall not by the provisions of this act be exempt from such examination, and when an applicant has passed a satisfactory examination a certificate signed by all the members of the board shall be issued to said
applicant entitling him or her to practice medicine, surgery, obstetrics in the State of Texas, and shall have affixed to it the seal of the State of Texas.

Sec. 6. In case any applicant shall fail to pass a satisfactory examination he or she shall not be permitted to stand any further examination within one year thereafter, and in no event shall an applicant who stands rejected by one of said boards be examined or licensed by either of the other boards. If an applicant desires to practice a system not represented by any of the boards hereby established, he or she may elect for himself or herself the board before which he or she will appear for examination; provided, that no applicant shall be rejected because of his or her adherence to any particular school of medicine or system of practice, nor on account of his or her views as to the method of treatment, and cure of disease; and provided further, when in the opinion of the presidents of the boards any applicant has been unavoidably prevented from appearing before board at their regular meeting, said president shall, upon notification, appoint a committee of three members to examine such applicant, and if the examination be satisfactory notify the secretary, who shall issue him or her a temporary certificate, which shall have the same force and effect as though granted by the full board until the applicant shall have the opportunity to appear before the board at its next regular meeting when said temporary certificate shall become void. No applicant shall be admitted to examination who cannot submit satisfactory evidence that he or she is more than twenty-one years of age, and is of good moral character. Applications for license must be made in writing and presented to the president or secretary of the board before which the applicant desires to appear and must be accompanied by a fee of fifteen dollars; provided, when an applicant desires to practice medicine on application for license shall be admitted to practice midwifery alone the fee shall be five dollars.

Sec. 7. The boards of examiners shall keep a record of their proceedings in a book kept for that purpose, showing name, age, place and duration of residence of each applicant, the time spent in medical study in or out of medical schools which have granted said applicant an diploma or degree or the date of attendance upon lectures in medicine; said register shall show also whether said applicant was rejected or licensed and shall be prima facie evidence of all matters contained therein.

Sec. 8. From and after the passage of this amendment it shall be unlawful for any person to practice medicine, surgery or obstetrics in this State except: First, all those who were practicing medicine in Texas prior to January 1, 1885. Second, all those who began the practice of medicine in this State after the above date who have complied with the laws of this State regulating the practice of medicine in force prior to the passage of this act; provided, that those who had diplomas recorded since January 1, 1891, shall present to the State Boards of Medical Examiners herein provided for satisfactory evidence that their diplomas were issued by bona fide medical colleges of respectable standing, receive a certificate from said boards, which shall be recorded as herein provided for, and provided that no fee shall be required for the issuing of such certificates. Third, all persons who shall hereafter receive certificates from the Board of Medical Examiners of this State as above provided for, and who shall also in all other respects have complied with the provisions of this act. Fourth, and provided, that all persons who may change their residence to the State of Texas, on filing a true copy of a license granted by the board of medical examiners of another State or Territory, certified by the affidavits of the president and secretary of said board, with satisfactory proof of the genuineness of the same, and showing that the standard of requirements of the medical laws of said State or Territory and that adopted by said board of medical examiners are equal to that provided for in this act, and who, on payment of the usual fee of fifteen dollars, may be registered and receive a license from the Board of Medical Examiners of Texas to practice in this State. Fifth, and provided further, that all persons who desire to hereafter begin the practice of medicine, surgery or obstetrics in this State, and shall make application to the medical examining boards, said application to be accompanied with the fee of five dollars as herein provided, and when the said medical examining boards may admit to examination such applicant, and after passing a satisfactory examination in this special...
branch, will be granted a license to practice midwifery in the State of Texas; provided, this shall not apply to those who do not follow midwifery as a profession, and who do not advertise themselves as midwives, or hold themselves out to the public as practicing the profession of midwifery.

Sec. 9. Any person shall be regarded as practicing medicine or surgery within the meaning of this act who shall profess publicly to be a physician or surgeon and shall offer for practice as such for those needing medical or surgical aid, and shall charge therefor money or other compensation. This act shall be so construed as to include persons not pretending to be physicians who offer for sale publicly on the streets or other public places remedies not manufactured and compounded within this State which they recommend for the cure of disease, but this act shall not apply to any commissioned officer or contract surgeon of the United States army, navy or marine hospital service in the performance of their duties as such, nor to any legally qualified physicians or surgeons residing under the laws of this State, nor to any lawfully qualified physician or surgeon residing in other States or Territories, meeting registered physicians and surgeons of this State in consultation.

Sec. 10. The applicant shall be examined in the following branches: Anatomy, physiology, chemistry, materia medica, therapeutics, histology, pathology, practice of medicine, surgery, including diseases of the eye, ear, nose and throat; obstetrics, gynecology, hygiene, and medical jurisprudence.

Sec. 11. The fund realized from the fees aforesaid shall be applied first to the payment of the necessary expenses of the boards of examiners, each board receiving only such fees as are collected from applicants who appear before said board. In addition to expenses the secretary shall receive ten dollars per day while in actual attendance upon regular meetings. If any balance be left in the treasury of the boards it shall be divided among the members in attendance as compensation for loss of time.

Sec. 13. Any person who shall practice medicine, surgery or midwifery in this State in violation of the provisions of this act shall be fined not less than fifty dollars nor more than five hundred dollars for each offense or by both fine and imprisonment not exceeding six months and it shall not be lawful for him or her to recover by action, suit, motion, or warrant, any compensation for services which may be claimed to have been rendered by him or her as such physician, surgeon or midwife; provided, that the provisions of this act do not apply to persons treating disease who do not prescribe or give drugs or medicines.

Sec. 14. That Title LXXXII., of the Revised Statutes of Texas, and Articles 3777, 3778, 3779, 3780, 3781, 3782, 3783, 3784, 3785, 3786, 3787, 3788, 3789, of said title be and the same are hereby repealed, and all laws and parts of laws in conflict with this act be and are hereby repealed.

Sec. 15. The fact that there is no law in force adequately providing for the license of physicians, surgeons and midwives creates an emergency and an imperative public necessity that the constitutional rule requiring bills to be read on three several days be suspended and this act be placed on its final passage and it is so enacted.

Approved February 22, 1901.
Law became effective July 3, 1901.

CAUTION.

Beware of the so-called Medical Directories, plagiarized from R. L. Polk & Co.'s Medical and Surgical Register of the U. S. and Canada, in violation of the copyright Laws.

We have positive proof that some of the so-called State Medical directories issued since August, 1900, were copied from our 1900 Register and palmed off as new and original works.

Our friends will confer a favor upon us as well as render a service to the medical profession by promptly notifying us of such attempted frauds.

*Abbreviations:* R, Regular; H, Homoeopathic; Ecl, Eclectic; P. M., Physio-Medical; *No report received*; §, Holds certificate of Examining Board; †, Legally authorized under the "years of practice" section of the act; ‡, Druggist.
The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 179) indicates the college of graduation, and the last number the year in which diploma was granted.
One physician in every county should be instructed in the most successful Rectal treatment in the world. It insures great enlargement of practice through the unlimited gratitude of patients, and the most desirable financial advantages.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 131 to 172) indicates the college of graduation, and the last number the year in which diploma was granted.
Nebulizers, Vaporizers, Atomizers, Combination-
Nebulizers, Inhalers, etc., manufactured.

**UTAH.**

**CAPITAL, SALT LAKE CITY.**

Population of State, 276,749. (U. S. Census of 1900.)

Number of Physicians, 297.

Utah was organized as a territorial, September 9, 1850, and admitted as a state January 4, 1896. It occupies an important position in the trans-Mississippi group of states. It is situated between the parallels of 37 and 42 degrees north latitude, and the meridians of 109 and 114 degrees west of Greenwich. On the same parallels are Colorado, Kansas, Missouri, Southern Illinois, Kentucky, Virginia, Spain, Italy, Greece, Turkey and Corea. The state adjoins Colorado, Nevada, Arizona and Idaho. It is 275 miles in width and 345 miles in length. Its total area is 84,970 square miles; its land area is 82,190 square miles (52,601,600 acres); its water area is 2,780 square miles (1,773,200 acres).

Its valleys are elevated from 2,700 to 7,000 feet above the sea. Some of its mountain peaks reach a height of from 12,000 to 13,500 feet. The Wasatch Mountains sweep down its center, and Uintah’s cross its upper half. It is a region of snow-clad mountains and broad, beautiful valleys. Many streams flow from the elevations and meander through the vales. Its largest body of water is the Great Salt Lake, covering an area of about 2,500 square miles. This is a far-famed feature of its topography; but it has a number of fresh water lakes of considerable size, the largest being Utah Lake, with a surface area of 125 square miles.

Within the lines of the state there exists a remarkable diversity of country, containing many unique features, some of which have given it world-wide fame, such as the Grand Canyon of the Colorado, and other wild scenery in the southern portion.

Almost every variety of climate, which is generally salubrious and agreeable, can be found in Utah. There are valleys for the farmer, the gardener and the fruit-grower; low mountain land, slopes and terraces for the sheep-raiser; mountains for the miner; scenery, hunting, fishing, and bathing for the pleasure-seeker; hot springs and pure air for the invalid, and plenty of opportunity and occupation for men of business and enterprise.
