The HAM-TMC Library is Undergoing Changes

As a result of comments by library users made at focus groups conducted in the spring and of the shift from paper to electronic resources, the HAM-TMC Library is going through a number of physical changes.

The first step of our major renovation project will be to remove most of the first floor current journals shelving. These shelves will soon be dismantled, opening the area for more public seating. Please bear with us as this process will be noisy. Soon, we will have new, comfortable furniture to place there.

You may also notice that many of the older books and journals are being relocated to the HAM-TMC Library's Historical Research Center. These items are becoming fragile and require a more stable environment. By moving older items, we will be able to make more space available for clients to use individually or collaboratively.

If you have any questions or comments, please contact Deborah Halsted at deborah.halsted@exch.library.tmc.edu or 713.799.7163.

Featured Database PEDro

PEDro a Physiotherapy Evidence Database is a free web-based database. This database contains over 11,400 randomized controlled trials, systematic reviews and evidence-based clinical practice guidelines relevant to the physiotherapy field. Abstracts and links to full-text documents are provided when available.

Quality ratings of randomized controlled trials are available to help the user judge the quality and usefulness of these trials in clinical decision-making.

PEDro is maintained by the Centre for Evidence-Based Physiotherapy located at the School of Physiotherapy at the University of Sydney. PEDro is updated monthly.

To access PEDro go to the [Library web site](#), click on databases and type PEDro in the search box.

PubMed Central® Reaches One Million Records

PubMed Central®(PMC) – NLM's free digital archive of full-text biomedical and life sciences journal articles reached one million records the week of June 18, 2007. PMC contains articles from over 350 life sciences journals whose publishers have agreed to deposit current issues.

More information on the PMC one million article mark can be found at:
<http://www.nlm.nih.gov/news/pmcmillion.html>
