Superior Surgical Ligatures.

Put up on glass spools, three spools (assorted sizes) in a neat bottle with a Nickel-plated Screw Cap.

The spools are so arranged on a hard rubber frame in the bottle that the ligatures may be drawn out through the cork as they are wanted for use; the cork being elastic closes tightly around the ligatures, thereby pressing all the surplus solution out of them and back into the bottle.

ANTISEPTIC SUNDRIES.

Dr. G. R. Fowler’s Aseptic Ligature Tube.

Ligatures boiled in alcohol under pressure. “The ligatures by this method are rendered absolutely aseptic after being hermetically sealed, and after all handling in the preparation has ceased.”

The following advantages are claimed for this method:—

1. The catgut is rendered absolutely aseptic after all handling in the preparation has ceased.
2. It is hermetically sealed against all infection.
3. It is cut into suitable lengths for use.
4. The surgeon may re-sterilize the gut, if he so desires, by placing it in an oven heated to 185 deg. Fahr.

“In employing this method (boiling in alcohol under pressure) for the sterilization of catgut, I wish to warn against attempting to combine the same with the use of chemical germicide. The addition of any of the usually employed antiseptic or disinfectant agents to the alcohol, or the placing of the gut therein, either before or after boiling in alcohol, will surely result, as I have repeatedly proved by trial, in disintegration of the gut.”

CARY'S EMERGENCY BAG.—No. 225.

This case has been arranged with a view to providing the Surgeon with the means for speedy preparation for an operation. In it are provided Antiseptics, Bandages, Ligatures and all the little accessories so necessary to both comfort and safety in those operations to which the surgeon is summoned at an instant's notice.

The cut illustrates the shape and general arrangement of the interior. The bag is made of dark grained leather, with nickel plated clasps and lock. Is lined with French calf of light color and can be thoroughly cleansed with a sponge. Loops extend down one side and around to the where a large pocket is fixed. On the under side of the lids are loops in which instruments to suit any given case may be carried. The bag may also be ordered in Aligator which adds $5.00 to the price.

CONTENTS ARE AS FOLLOWS:

1 doz. Carbolized Sponges, in Screw Cap Bottle.
1 4 oz. Glass Stoppered, Metal Cover, Chloroform Bottle.
1 2 oz. Glass Stoppered, Metal Cover for Carbolic Acid.
1 Bottle Carbolized Drainage Tubes.
1 Bottle Corrosive Sublimate.
1 Bottle Cat Gut Ligatures, assorted sizes.
1 Bottle Silk Ligatures, assorted sizes.
1 H. R. Iodoform Box and Duster.
1 Instantaneous Tourniquet.
1 Nail Brush.
1 Box Hydronphthal Soap.

All instruments designated with a * are illustrated.

CARY'S EMERGENCY BAG, No. 225.—Continued.

1 Pair Dressing Forceps.
1 Pair Esmarch's Bandage Shears.
1 Fine Razor.
1 Pus Basin, Papier Mache, small.
1 Pus Basin, Papier Mache, large.
1 Four quart Fountain Syringe with Esmorch's cut-off.
1 Esmarch's Bandage.
1 Heavy Canvas Roll, which may be washed at will.
2 Zinc Trays, which fit into each other and over outside of bag.

The Satchel has two straps with buckles which extend around the outside of the bag, and are so put on that when Satchel is closed are tight and hold on the trays, but, when open permit their being taken off without unbuckling them. With these contents there remains ample room for a compact Amputating Case, Kelly's Pad, Gynocolgical Roll, Sponges, Etc. Thus it will be seen my No. 225 Case contains only Dressing, Antiseptics, Ligatures, Etc., leaving the individual operator to supply instruments of his choice, using either those he has or ordering as the requirements of his practice indicate.

CARY'S EMERGENCY OPERATING AND DRESSING CASE.

In presenting to the profession our Emergency Operating and Dressing Case, we have met, and we think, overcome some of the objections found with all those in use. The accompanying sketch give a faithful representation of the case opened, and convey a much better idea of it than any description. It is 17 inches long, 4 1/2 inches wide, and 6 1/2 inches high, when closed. It is covered with fine black leather, has slide bolt catches and lock and key, velvet covered flaps protect both instruments and dressings, (not shown in the cut.) When in the case the knives are always in one position and can never be thrown upon their edges. The case is arranged so compactly, that while not exceeding the ordinary size, still a large space is saved for dressings. The contents selected by a surgeon of long experience, are as follows:

1 Amputating Saw.
1 Amputating Catlin, medium.
1 Amputating Scalpel.
1 pair Cutting Bone Forceps.
1 Bullet Probe.
1 Key's Saw.
1 Pair Parker's Retractors.
1 Fine Scalpel.
1 pair Bullet Forceps.
1 Director and Tongue Tie.
1 Fine Tenaculum.
1 pair Pean's Haemostatic Forceps.
1 pair Bull-dog Artery and Needle Forceps, Combined.
1/2 yard Gutta Percha Tissue; Silver, Silk.
8 Roller Bandages; 1 Tin of Plaster.

1 Amputating Knife, long.
1 Amputating Knife, medium.
1 Bone Gouge.
1 pair Bone Forceps, Sequestrum.
1 Galt’s Trephine.
1 Trephine Elevator.
1 Metacarpal Saw.
4 Fine Bistouries.
1 Hydrocele Trocar.
1 Aneurism Needle.
1 pair Scissors.
1 pair Fine Artery Forceps.
1 Spiral Tourniquet.
1/2 yard Oil Silk; 3 yards Gauze.
Suture Needles, Hare-lip Pins.

No. 715* Cary's Emergency Operating and Dressing Case .................. $55.00

NOTE.—An Esmarch's bandage for bloodless operations may be substituted for the Spiral Tourniquet.
LEONARD'S ASEPTIC GENERAL OPERATING CASE.

The above Case is made of Rosewood, lined with leather, $14\frac{1}{2} \times 4\frac{1}{2} \times 3\frac{1}{4}$ inside measurements.

CONTENTS:

1 Long Amputating Knife, Metal handle. 1 Pair American Bullet Forceps.
1 Medium Amputating Knife, Metal handle. 1 Trephine Elevator and Raspatory.
1 Medium Catling, Metal handle. 1 Heys' Saw, Vulcanite handle.
1 Amputating Scalpel, large, Metal handle. 1 Nelaton Bullet Probe.
1 Spiral Tourniquet. 1 Fenestrated Artery Forceps.
1 Conical Trephine. 1 Steel Round-head Chisel.
1 Boue-Cutting Forceps, double Concave, Leonards. 1 Sequestrum Forceps.
1 Amputating Saw, Vulcanite handle.

The minor instruments are fitted into a neat, light, leather-covered and leather-lined case that can be removed from the case and carried separately if desired, which is a great advantage over the old style of cases.

MINOR CASE CONTAINS:

1 Metacarpel Saw, 3 Scalpels, 1 Curved sharp-pointed Bistoury, 1 Curved Probe-pointed Bistoury, 1 Finger Knife, 1 Hernia Bistoury, 1 Tenaculum, 1 Artery Needle. All the above with Vulcanized Rubber Handles, perfectly smooth. 1 pair Scissors, curved up, 1 pair straight Scissors, 1 Allis Haemostatic and Needle Forceps combined, 1 Thumb Forceps, 1 pair silver Probes, 1 director.

Case $8\frac{1}{4} \times 2 \times 3\frac{3}{4}$, made of solid piece metal, highest quality.
