THE EMPIRE ELASTIC BANDAGE
SPECIALIZED FOR VARICOSE VEINS.

We invite the attention of the Medical and Surgical profession to the various merits combined in the Empire Bandages:

1st. ITS POROSITY - The greatest in the "Empire". It never causes itching, rash or ulceration under the bandage.

2nd. ITS ELASTICITY, which will enable the surgeon or nurse to put it on at any required tension, and which will follow a swelling up or down, as the case may be, a feature unknown to any other bandage.

3rd. ITS ABSORBENT PROPERTIES - Greatest in the "Empire."

4th. ITS EASY APPLICATION to any part of the body, without being necessary to fold over, as with other bandages, as it follows itself with equal uniformity around any part of the abdomen.

5th. ITS SELF-HOLDING QUALITIES - No bother with pins, needles and thread or string, so tiresome to surgeons, as simply tucking the end under the last fold insures its permanent stay, until its removal for purpose of cleanliness.

6th. The only Bandage that is SUPERIOR TO THE ELASTIC STOCKING for varicose veins.

Send $1.00 for a 3 inch by 5 yard Bandage on approval.

THE EMPIRE ABDOMINAL SUPPORTER
Is Superior to all others for the following reasons:

1st. It adapts itself to every movement of the body, giving strong and even support.

2nd. It produces warmth without irritation or sweating, as it is perfectly ventilated.

3rd. In pregnancy, corpulence, tumors or other cases of enlargement of abdomen, it supports weight of body from the backbone, relieving the sinews of their overwork.

4th. Its easy appliance (lace and drawn over the head or feet.)

5th. It is cheap, durable. It can be washed when soiled, proper care being taken to cleanse in lukewarm water, and dry in the shade.

In ordering give the measure of the abdomen.

PRICES:

$2.50
$3.00

THE EMPIRE UMBILICAL TRUSS
Is an Abdominal Supporter with Button Inserted at Navel.

Is made of the same material, and possesses the same merits as the Empire Elastic Bandage and Empire Abdominal Supporters and is pronounced by all who have seen it to be the BEST IN THE WORLD.

All of our goods are sent free by mail upon receipt of price, and money refunded if not satisfactory.

WE CALL special attention to our New Medicine Case, No, 1920, as illustrated. It is a good substantial case, covered with leather, containing 18 two dr. vials, 18 six dr. Vials, three 8-oz. bottles, also space for Hyperdermic Syringes, silk, etc. The price puts it in reach of any physician.

Price, $4.50

The Aseptic Obstetrical Bag, No. 950.

Square, Cabinet Bag style, 5½ inches wide, 6 inches high, 15, 16 or 17 inches long. Opens on top; no gussets; hence no waste of space when closed. Made of best grade of bag leather, leather covered steel frame with full nickel trimmings, and lined with smooth leather, which allows the inside to be cleaned with a moist sponge whenever necessary, making the bag as near aseptic as an article of this kind can be made. It is the strongest, neatest, most cleanly and cheapest Obstetrical Bag of its kind on the market. It will outwear three of the ordinary bags.

ABSORBENT COTTON.

Notice Reduction in Prices.

PLAIN AND MEDICATED.
Tissue Paper Between Layers.

DURING the past year we have added to our plant the most complete and latest Improved Cotton Machinery in existence for the production of ABSORBENT COTTON on a vast scale by all the modern processes for handling and perfecting this article; it is safe to say that the quality of our Absorbent Cotton exceeds that of any other maker, at prices which defy competition.

CAUTION! Be on your guard when some of our competitors tell you our packages do not contain one pound, as they are endeavoring to mislead you. We base our prices on a pound including the weight of the tissue paper. If you want a full pound of Cotton and the Tissue Paper too, it will afford us great pleasure to put it up that way for you, at a cost not exceeding the cost of the tissue paper, which will be one cent per pound advance over the prices mentioned. No one can furnish the tissue paper free, it must figure somewhere in the cost of the cotton, and we think the most satisfactory way by far of doing it, is to weigh the tissue with the cotton, as that is usually the plan adopted by all manufacturers.

**BEST QUALITY.**

293 MAIN STREET, 9
DALLAS, TEXAS.
The Pouch is supported by a Body Band, and also by a Leg Band which passes around the sides and back of legs and through the Sliding Loop at back of Pouch. The Sliding Loop plays freely on the Leg Band thereby allowing the Pouch to adjust itself as the movements of the body or clothing may require, consequently the Suspensory fits perfectly and gives best possible support no matter what position the body may assume. The LOOP is protected by a Cloth Shield which prevents any pinching on account of the play of the Leg Band through the Loop,

SOLUBLE COMPRessed HYpODERMIC TABLETS.

ALL OF OUR HYpODERMIC TABLETS COMPRessed WITHOUT FOREIGN ADMIXTURE, EXCEPT WHEN THE BULK OF THE MEDICAMENT IS LESS THAN ONE-TWELFTH OF A GRAIN.

Recent improvements in our Hypodermic Compressing Machines, enable us now to manufacture these tablets entirely free from any foreign material, thus insuring immediate solution and FREEDOM FROM ALL POSSIBILITY OF LOCAL IRRITATION.

We claim for our Hypodermic Tablets: **Absolute Accuracy of Dose,** **Ready and Entire Solubility,** **Perfect Preservation of the Drug.** Their convenience and utility will at once be apparent on examination.

We give below Price List of Soluble Compressed Hypodermic Tablets most frequently ordered. They are put up in cases of ten tubes, each tube containing twenty tablets; also, in bottles of 100 each.

FOR SALE, Wholesale and Retail, BY A. P. CARY, 293 MAIN ST., DALLAS, TEXAS.
Dental Work Desk.

We have lately added to our DENTAL GOODS a neat Office Work Desk, which is as useful as ornamental, and particular recommend it to Dentists who are CROWDED FOR ROOM.

We make them in Solid Walnut and Atique Oak.

The total height is 45 inches, width 30 inches, depth 20 inches.

The desk part is 15 inches, consists of one shelf and two drawers. The drawers are 17x14½; depth 3 inches.

It also has a gas pipe, which can be connected by rubber tubing with the gas fittings in office.

A neat folding top can be lowered and locked when not in use.

MADE BY R. BOERICKE & CO., CHICAGO, ILL.

- - Price, $18.00. - -

A. P. CARY, Selling Agent, DALLAS, TEXAS.
Physician's Cabinet

We desire to call attention to our new styles of PHYSICIANS' CABINET as shown in cut. It is a very tasty and convenient piece of furniture for office use, specially manufactured for the use of the Gynecologist, Surgeon, Oculist, Dentist, and the general practitioner.

It has a neat and convenient top with shelves (see cut). Top space has a row of nice plated clamps for holding inhalent bottles; below there are two open shelves for keeping bottles, etc.; in bottom are drawers, etc., as shown in the cut.

We make them in Antique Oak and Walnut. Mountings are Nickel Plated. Boxwood Castors.

Height of Cabinet to railing, 63 inches.
Width " 28 "
Depth " 16 "

FAMILY SIZES FOR STERILIZING OR PASTEURIZING MILK.

No. 1. Heavy Tin, Copper Bottom, with rack and 7 Bottles, $3.00 Each.
No. 2. Heavy Tin, Copper Bottom, with rack and 8 Bottles, $3.50 Each.
EXTRA BOTTLES, 75 Cts. per Doz.
BOTTLE RACKS, 50 Cts Each.

DESCRIPTION:—Water is poured into the pan or reservoir, whence it passes slowly through three small apertures into the shallow copper vessel beneath, becomes converted into steam and rises through the funnel in the center to the Sterilizing chamber above. Here it accumulates under moderate pressure at a temperature of 212° F. The excess of steam escapes about the cover, becomes imprisoned under the Hood, and serves to form a steam jacket between the wall of the Sterilizing Chamber and the Hood. As the steam is forced down from above and meets the air it condenses and drips back into the reservoir.

CROUP ATTACHMENTS, WITH 10 INCH TUBE, 30 CENTS EACH.
ADDITIONAL LENGTHS, 10 CENTS EACH.

In warm weather, and for most Babies, Sterilizing (212° F.) is recommended. In cold weather, or when a pure quality of very fresh milk can be obtained, Pasteurizing (160° F. to 170° F.) is preferred by some physicians.

Manufactured only by WIL/1OT CASTLE CO., Rochester, N. Y.
SOLD BY A. P. CARY, DALLAS, TEXAS.
THE IMPROVED "YALE" SURGICAL CHAIR.

FIRST HIGHEST AWARD WORLD'S FAIR, OCT. 4TH, 1893.

1st. Raised by foot and lowered by automatic device.—Fig. I.
2nd. Raising and lowering without revolving the upper part of the chair.—Fig. VII.
3rd. Obtaining height of 30½ inches.—Fig. VII.
4th. As strong in the highest, as when in the lowest position.—Fig. VII.
5th. Raised, lowered, tilted or rotated without disturbing patient.
6th. Heavy steel springs to balance the chair.
7th. Arm Rests not dependent on the back for support.—Fig. VII—always ready for use; pushed back when using stirrups.—Fig. XVII may be placed at and away from side of chair, forming a side table for Sim's position.—Fig. XIII.
8th. Quickest and easiest operated and most substantially secured in positions.

Fig. I—Semi-Reclining.

9th. The leg and foot rests folded out of the operator's way at any time—Figs. XI, XV and XVII.
10th. Head Rest universal in adjustment, with a range of from 14 inches above seat to 12 inches above back of chair, furnishing a perfect support in Dorsal or Sim's position.—Figs. XIII and XV.
11th. Affording unlimited modifications of positions.
12th. Stability and firmness while being raised and rotated.
13th. Only successful Dorsal position without moving patient.
14th. Broad turntable upon which to rotate the chair, which cannot be bent or twisted.
15th. Stands upon its own merits and not upon the reputation of others.

Fig. XVII—Dorsal Position.

Pronounced the ne plus ultra by the Surgeon, Gynecologist, Oculist and Aurist.

Sold on easy installments. Write for special price lists, also fully illustrated and priced on page 182 of this catalogue.
MODERN Surgery demands modern appliances, and to that end, The Harvard Instrument Cabinet has been designed, especially for physicians and surgeons. The unique features of this cabinet are characteristic of the operating office furniture manufactured by us. The independent swinging shelves which are pivoted to the front left corner, provide ample space for the instruments of the general practitioner or specialist. When the door is open, each shelf may be swung out, independent of the other. This is more desirable than the method heretofore employed of using drawers, fixed shelves, or a series of shelves all swinging together. Any shelf may be readily inspected, and any instrument selected without the necessity of stooping to look between the shelves. The space for the reception of instruments on these shelves is equal to a table 30x44 inches. Each shelf has a flange surrounding it, the lower ones being deeper than the upper ones, to prevent instruments from falling off.

The cut represents our style No. 17 X. The same as No. 7 X, except that the Cabinet has Roll Top.

20 STYLES TO SELECT FROM.

What the Individual Judge of the World’s Fair has to say.

MR. H. G. BOWERS.
Agent of the Harvard Co., Canton, O.

Dear Sir: It gives me pleasure to tell you my opinion of the Improved Harvard Chair. Before I went to Chicago I had my mind fully made up to buy a chair, but not the Harvard. After spending two months there as Judge of Medical and Surgical Supplies, and after examining every chair and table on exhibition, I gave a practical exhibition of my opinion by ordering a Harvard Improved from you. I have been using the chair in my office since the 1st of October 1893, and am fully satisfied with it. I have not a fault to find nor an improvement to suggest.

If this letter is to be of any use to you the readers of it will need to know that this chair was not a gift to me but was bought and paid for.

Yours truly,
IDA J. BROOKS, M. D.
