- Library Class Schedule

New Resource: UpToDate

The Library is pleased to announce that the UpToDate clinical decision support system is now available. Frequent requests from clients during the past year attest to the popularity of UpToDate.

With comprehensive, current, illustrated and fully referenced information on more than 6,000 clinical topics, UpToDate is one of the most complete sources of synthesized information in internal medicine and its subspecialties: family medicine, obstetrics and gynecology, and pediatrics.

Remote Access is not available for this resource.

For information on how to access this database, go to:

Dinner With...Houston's Most Fascinating

The Friends of the Texas Medical Center Library hosted its biennial Dinner With . . . Houston's Most Fascinating on October 27th at Houston Country Club.

The tables sported amazing centerpieces: five-foot azalea trees. These were subsequently to be planted on the grounds of the Hospice at the Texas Medical Center, where they will serve as a beautiful living tribute to the generous Houstonians who support the outstanding community programs spearheaded by the Friends.

The proceeds of this year's dinner will benefit Project Outreach, a Friebbernds-sponsored comprehensive program created to provide health information services to medically underserved populations in Houston, as well as the Hospice at the Texas Medical Center. The event, chaired by Friends Carolyn Davis Alexander and Betsy Parish, attracted more than 250 guests and successfully raised more than \$100,000 for Project Outreach, which is implemented via the HAM-TMC Library's Jesse H. Jones Community Health Information Service

From the Executive Director

Happy Holidays to all! In this season of giving and thanks, we devote this issue to our fundraising efforts, acknowledging the donors who give funds, materials, equipment and best of all – their support, approval and their enthusiasm. The biennial fundraising event, Dinner with Houston's Most Fascinating, sponsored by the Friends of the Texas Medical Center Library and held October 27, 2005, was a delight and a great success. Another important fund raising event is the **Match-Makers**. This

past year the John P. McGovern Foundation has agreed to match all donations up to \$20,000. The Library needs 200 **Match-Makers** – just 200 **Match-Makers** with a gift of \$100 each will meet this challenge! The money raised through this match-challenge will be deposited in the McGovern Endowment for the support of the Library's historical collections. Consider being a donor.

The library continues to offer valued resources. A new data base, *UpToDate*, has been added to our collection and is one of the most complete sources of synthesized information in internal medicine and its sub-

specialties of family medicine, obstetrics and gynecology, and pediatrics.

In the New Year the Library will continue to offer classes such as Evidence-based Medicine Databases. See our web page for full details: [HYPERLINK "http://resource.library.tmc.edu/class/schedule.php"](http://resource.library.tmc.edu/class/schedule.php) <http://resource.library.tmc.edu/class/schedule.php>

Do participate in fund raising, use our resources and attend our classes! See this issue for details. We hope to see you soon!

Again Happy Holidays and the Best for the New Year!

Elizabeth K. Eaton

Elizabeth Eaton, PhD
Executive Director
HAM-TMC Library

A Challenge Has Been Delivered –

The John P. McGovern Foundation has agreed to match all donations up to \$20,000. Now the Library needs **Match-Makers** to help meet this challenge. **Over half the funds have been raised.** Ninety Match-Makers with a gift of \$100 will meet this challenge.

Please consider a donation now to help support our historical collections. Gifts to

the HAM-TMC Library qualify as charitable donations.

The money raised through this challenge grant will be deposited in the McGovern Endowment for the support of the Library's historical collections. These include a magnificent collection of books by and about William Osler, a world-class rheumatology collection, nearly 40,000 photographs, a nineteenth century public health collection, several hun-

dred archival collections documenting the history of health care in Houston, and early texts documenting the founding of many medical specialties.

If you would like to see some of our historical treasures, please contact [HYPERLINK "http://mcgovern.library.tmc.edu/text/contact/index.htm"](http://mcgovern.library.tmc.edu/text/contact/index.htm) a member of the McGovern Research Center staff for a tour of the Rare Book Room (M.J. Figard at

713-799-7141) or the Historical Research Center at 8272 El Rio (Pam Cornell at 713-799-7145).

You can mail your check to:
