This workshop will include \"Best Practices\" related to the integration of web-based instruction into allied health programs or courses.

Participation in this workshop will enable the allied health educator to:

- 1-Identify courses or components of courses that lend themselves to online instruction.
- 2-Incorporate \"best practices\" into initial online course design and development.
- 3-Identify crucial technical support and student resources for online programs.
- 4-Recognize the benefits of mentoring relationships with colleagues in the development and teaching of online courses.
- 5-Utilize the practical information and strategies presented to assist in the development of new course and/or improve existing courses
