Chair, PubMed Central National Advisory Committee
Digital preservation of Journal Literature at the National Library of Medicine

Visit the conference website at: <http://resource.library.tmc.edu/Conference.htm> for more information and registration.

Librarians Celebrate National Library Week

Librarians at the HAM-TMC Library celebrated National Library Week April 2-8 with a series of events that included a sale of books for recreational reading, two workshop presentations, and prize drawings.

On Friday, staff members wearing commemorative T-shirts gathered outside the Library and enthusiastically headed to Hermann Park to participate in the last event of National Library Week, a two-mile walk around the golf course.

New Resources: SCOPUS Database on Trial

The HAM-TMC Library will continue providing educational users with trial access to *SCOPUS*, a

new Elsevier database, until October, 2006. *SCOPUS* users can search information contained in 28 million records from 14,000 publications.

The publications covered by *SCOPUS* are primarily from the life and health sciences fields. From 1996 onwards, *SCOPUS* covers all the journals indexed in Medline and EMBASE (a database known for its coverage of European medical and life science journals and drug information), as well as titles in Chemistry, Physics, Mathematics, and Engineering, Biology, Agriculture, and Environmental Sciences. *SCOPUS* also covers the proceedings of 750 conferences.

Please give *SCOPUS* a try soon and send your feedback on its content, features and interface to Leah Krevit, Associate Director for Collections Management (leah.krevit@exch.library.tmc.edu; 713 799.7126).

News in Health

The April issue of *News in Health*, a publication that includes practical health news and tips

based on the latest NIH research, is now available at: <http://newsinhealth.nih.gov/>

Featured Stories:

- The Trouble with Fat: Insights into Low-Fat Eating
- Winning at Losing: How to Keep that Weight Off

Health Capsules:

- Supplements May Not Help Knee Pain
- Calcium and Vitamin D Trial Results
- American Indian Health

As the primary federal agency for conducting and supporting medical research, NIH produces content that is not copyrighted. Copies can be downloaded and displayed free of charge.
