Library's Web based Calendar is Now Available

WebEvent, the Library's web based calendaring software that includes the conference rooms and classroom reservations, experienced a disk crash that caused the calendar to be off-line. Unfortunately the data could not be recovered and Library's backups for that system were also lost. The *WebEvent* server has been rebuilt but all data pertaining to the calendars has been lost.

We apologize for this inconvenience and for having to resubmit your future requests. For further information, please contact Elizabeth Hickman at: elizabeth.hickman@exch.library.tmc.edu or 713.799.7106

New and Improved Limits Page in PubMed
The limits interface in PubMed has been updated. New enhancements include: limit to citations that link to full text and the ability to add more than one author, journal or language to your search.

For more information, visit the NLM Technical Bulletin web site at: http://www.nlm.nih.gov/pubs/techbull/ma06/ma06_limits.html
