The Insider Express communicates Library news to our users and the Texas Medical Center community. To subscribe or to be removed from this list, please send a message to liblines@library.tmc.edu

Hot Topics:

Library Holiday Hours; CINAHL Database Moving from OVID to EBSCO; Darwin 2009 Houston; Featured HAM-TMC Library Classes in November

Library Holiday Hours

The Library will be closed on Thursday November 22 in observance of Thanksgiving Holiday. The Library will be open 8:00 a.m. – 5:00 p.m. on Friday November 23. Reference services are not available on Friday. Regular hours resume on Saturday November 24.

For a complete list of Holidays check the Library web site at:

<http://resource.library.tmc.edu/circ/hours.cfm>

CINAHL Database moving from OVID to EBSCO

The Cumulative Index of Nursing and Allied Health Literature (CINAHL) database will be available on a different interface. Originally provided by OVID, CINAHL has been purchased by EBSCO Company. Beginning January 2008, EBSCO will be the exclusive provider of CINAHL.

The new interface *CINAHL Plus with Full-Text*, includes access to 620 full-text journals, 218 books and monographs, Continuing Education Modules and Research Instrument Records among other new features.

The Library will have concurrent access to both the OVID and EBSCO interfaces through the end of December, 2007. Beginning in 2008, there will only be access to the EBSCO version.

Please begin using CINAHL Plus with Full Text from EBSCO to become familiar with it and be ready for the changeover in the New Year.

To access *CINAHL Plus with Full-Text* go to the [Library web site](#) and select databases.

Darwin 2009 Houston

In recognition of the importance of Charles Darwin's writing, several educational and cultural institutions in Houston are working together to offer events and resources about natural selection, evolution, and genetics. These institutions support science education and recognize how science affects every life.

The Houston Academy of Medicine-Texas Medical Center (HAM-TMC) Library is hosting this website to serve as a nexus of information about the Darwin project for the Houston/Harris County area. Charles Darwin's scientific contributions will be recognized with activities in the Houston area during 2009 to mark the bicentennial of Darwin's birth and the sesquicentennial of the publication of *On the Origin of Species*. Darwin's concepts remain critical to the continuing development of the biological sciences.

Please let your clientele know about the project and place a link to www.darwin2009houston.org on your website.

For more information, contact Mary Jane Figard at mary.figard@exch.library.tmc.edu or 713.799.7141.
