Dear Jiandong Chen:

As the editor of RNA and a representative of the RNA Society I give you permission to reproduce the following article:

An RNAi screen identifies additional members of the Drosophila Integrator complex and a requirement for cyclin C/Cdk8 in snRNA 3' -end formation

Jiandong Chen, Nader Ezzeddine, Bernhard Waltenspiel, Todd R. Albrecht, William D. Warren, William F. Marzluff, and Eric J. Wagner
RNA December 2012 18: 2148-2156

The article will be reproduced in a Ph.D. dissertation at UT Medical School at Houston. If you require additional documentation other than this email or if your institution has its own required form, please let me know.

Sincerely,
Timothy W. Nilsen
Editor, RNA

COMMENTS:

I am a graduate student at UT Medical School at Houston, and I am writing my dissertation at this moment. One Chapter of my research work has been published on the RNA, and I would like to re-use part of the text and figures in my dissertation. I am writing to ask for permission to use those
I tried to use the Copyright Clearance Center (CCC) to get the permission, but it is too complicated to make it. Also, service from CCC has service charge! I just wonder for RNA whether the journal can provide a written permission for the author to use his own published work, just like that provided by the MCB journal. Thank you very much!

Best,
Jiandong
RE: Reuse permission
ASM Journals [Journals@asmusa.org]

Subject: Reuse permission

Dear ASM Staff,

I am a graduate student at UT Medical School at Houston, and I am preparing for my PHD dissertation.

I want to reuse one figure from our published work on MCB for my dissertation, and I do not know exactly how should I write on my thesis to give proper credit to the journal.

I did read the instruction from your website, that says:

"Authors may republish/adapt portions of their articles ASM also grants the authors the right to republish discrete portions of his/her article in any other publication (including print, CD-ROM, and other electronic formats) of which he or she is author or editor, provided that proper credit is given to the original ASM publication. "Proper credit" means either the copyright lines shown on the top of the first page of the PDF version, or "Copyright (c) American Society for Microbiology, [insert journal name, volume number, year, page numbers and DOI]" of the HTML version."

The published work I will use is:

A subset of Drosophila integrator proteins is essential for efficient U7 snRNA and spliceosomal snRNA 3'-end formation.
Ezzeddine N, Chen J, Waltenspiel B, Burch B, Albrecht T, Zhuo M, Warren WD, Marzluff WF, Wagner EJ.

Where I am the 2nd author.

In my case, would you please let me know what copyright lines I should write on the first page of the thesis? Or should I get a usage permission from the journal/publisher?

Thank you very much.

Best,

Jiandong
