## ***New Online Journal***

The [\*\*\*Texas Medical Center Library\*\*\*](#) is proud to announce the publication of a new online, peer-reviewed, open-access journal. The *Journal of Applied Research on Children: Informing Policy for Children at Risk*, or JARC, is a product of the [\*\*\*CHILDREN AT RISK Institute\*\*\*](#), a non-partisan research and advocacy organization dedicated to addressing the root causes of poor public policies affecting children.

The first issue, launched in September 2010 concentrates on topics related to Latino children. To access this publication, go to the TMC Library's Digital Commons at:  
<http://digitalcommons.library.tmc.edu/childrenatrisk/vol1/iss1/>

Are you interested in creating a new online journal? The Library provides software, training, publishing and the editorial help you may need. This service is **FREE** to members of the Texas Medical Center Library.

### ***Science Translational Medicine - New Journal Subscription***

The [TMC Library](#) has recently subscribed to the newest publication from the American Association for the Advancement of Science: *Science Translational Medicine* (STM). [Science Translational Medicine](#) offers original, peer-reviewed, science-based research that successfully advances clinical medicine toward the goal of improving patients' lives. Its mission is "to promote human health by providing a forum for communication and cross-fertilization among basic, translational, and clinical research practitioners and trainees from all relevant established and emerging disciplines."

The publication schedule runs 12 issues per year with 12-16 original peer-reviewed articles per issue. Users may tailor the STM site to their own needs and interests by setting up CiteTrack alerts by either keyword, author or citation.

**STM is available via remote access to educational users, or to anyone who physically visits the Library.**

To access full text articles in *Science and Translational Medicine*, go to the library website: <http://www.library.tmc.edu> and type the title of the journal in the E-Journals (A -Z list) search box.

If you have any questions regarding STM, please contact us at:

### ***Retraction Watch Blog***

Want to find out about the latest retractions in published scientific research?

Subscribe to [Retraction Watch](#) to receive the latest blog posts on retracted papers, research results and more. [Retraction Watch](#) was created by [Ivan Oransky](#), teacher of medical journalism at New York University's Science, Health and Environmental Reporting Program and [Adam Marcus](#), managing editor of [Anesthesiology News](#) and freelance writer for publications such as *The Economist*, *Science* and *The Christian Science Monitor*.

The first post, ["Why write a blog about retractions?"](#) explains the authors' purposes and scope of this new blog site.
